METROPLEX GROWTH

ECONOMY

St. Louis is highly ranked for its logistics infrastructure, bolstered by its central geographic location and easy access to major waterways. It is a significant inland port. The region is emerging as a large financial services center, with two Fortune 500 companies headquartered in the metro: Jones Financial and Reinsurance Group-America. The metro is home to six other Fortune 500 companies: Centene, Emerson Electric, Olin, Ameren, Post Holdings and Graybar Electric. Government entities pursue business development and provide resources for startups, along with incubators with guidance and inexpensive office and lab space.

METROPLEX GROWTH

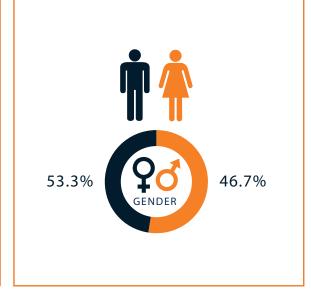

The metro is expected to add more than 37,000 people through 2025, which will result in the formation of approximately 21,000 households. A median home price below the national level has produced a homeownership rate of nearly 69 percent, which is well above the national rate of 64 percent. Roughly 33 percent of people age 25 and older hold bachelor's degrees; among those residents, 13 percent also have earned a graduate or professional degree.
