OFFERING SUMMARY -

- Four-Building 76,500-Square-Foot Warehouse Asset on 3.55 Acres
- Close Proximity to I-57 | Features 14'-18' Clear Height, Six Dock Doors, and Seven Grade Doors
 - Priced Well Below Replacement Costs with Value-Add Investment Opportunity
- Fully Occupied by National/Local Tenants with 84% of Property Leased Through 2027/2028
 - Located in Large Submarket with 2.3% Vacancy Among Comparables

Marcus & Millichap is pleased to present the opportunity to acquire the property located at 1175 Central Avenue in University Park, Illinois. The subject property consists of approximately 76,500 square feet of warehouse space and is situated on 3.55 acres of land. The four-building asset features a clear height between 14' and 18', six dock-high doors (including four interior), seven grade-level doors, three-phase heavy power, and 35 parking spaces. Located less than one mile from Interstate 57, the property sits 36 miles southwest of Downtown Chicago. The property is fully occupied by four national and local tenants on modified gross leases. About 84 percent of the property is on leases that expire from March 2027 to April 2028, with the remaining 12,000 square feet occupied on a month-to-month agreement, creating a value-add opportunity. At \$76.41 per square foot, investors can acquire an asset well below replacement costs.

The subject property is positioned within Far South Cook, a relatively large submarket containing 36.4 million square feet of industrial space. In the first quarter of 2024, the vacancy rate declined 130 basis points from its decade's high at 8.8 percent thanks to a rebound in net absorption. Among comparable industrial properties between 50,000 and 100,000 square feet, availability remained tight at just 2.3 percent in Q1. Across Far South Cook, annual rent growth slowed to 6.4 percent during this time but was nearly twice the level as the increase in the Consumer Price Index. Going into Q2, only 258,000 square feet of industrial space was under construction in Far South Cook, representing less than 1.0 percent of inventory. Given the lack of new supply, vacancies and rents will largely be dependent upon demand for the foreseeable future (CoStar).

Known as the Greater Chicagoland area, Chicago-Naperville-Elgin is the third largest metro in the nation. The metro houses 9.5 million people, including 2.7 million residents within the city of Chicago. The number of corporate headquarters in Chicago is second only to New York City and is home to 33 Fortune 500 companies. Thanks to eight commercial and passenger rail lines, the Port of Chicago, three international airports, and a vast network of freeways, Chicago is a major distribution and logistics hub. The local economy and workforce are highly diverse, supported largely by distribution, finance, manufacturing, and high-tech industries. As a multicultural city that thrives on the harmony and diversity of its neighborhoods, Chicago boasts 100 neighborhoods, 77 community areas, 50 wards, and eight major league sports teams, including two MLB teams. Chicago is a leader in reforming public schools, enhancing public safety and security initiatives, providing affordable housing in attractive and economically sound communities, ensuring accessibility for all, and fostering, social, economic, and environmental sustainability (Chicago.gov).

SECTION 2

MARKET OVERVIEW

Marcus & Millichap

CHICAGO

Chicago-Naperville-Elgin is one of the largest metros in the nation. The Chicagoland area is bounded to the east by Lake Michigan, expands over a 5,000-square-mile region in northeastern Illinois and extends into Wisconsin and Indiana. The metro houses 9.5 million people and comprises 14 counties. The city of Chicago contains 2.7 million residents. The greatest growth during the past 20 years occurred in the western portion of the region and was exemplified between 2020-2021. Since then, movement back into downtown Chicago is gaining headway as employers increasingly push for hybrid work schedules, while progressing tourism levels support activity in the urban core.

METROPOLITAN AREA

WEALTH OF INTELLECTUAL CAPITAL

LARGE, DIVERSE EMPLOYMENT BASE

METROPLEX GROWTH

ECONOMY

The metro has one of the biggest economies in the nation, and is buoyed by its distribution, finance, manufacturing operations and growing high-technology sectors. Fortune 500 companies headquartered in the metro include Walgreens, Abbott Laboratories, Allstate and McDonald's. The area is a major global tourist and convention destination. Typically, more than 50 million people visit the metro annually and support nearly 500,000 jobs in the leisure and hospitality sector. Although suppressed during the pandemic, visitations and employment are improving. Large tech firms operating in the metro, such as Amazon and Google, attract a wide array of startup companies. Backed by some of the nation's more well-regarded universities, the workforce is considered one of the most diverse and well trained among major United States metros.

METROPLEX GROWTH

TRANSPORTATION

The region's transit network ranks among the largest and most efficient in the world. The vast network of freeways, centralized location, a large rail-truck intermodal facility and the Port of Chicago contribute to the metro's position as a major distribution and logistics hub. Chicago is the nation's top freight rail hub, with major carriers BNSF, Union Pacific, CSX and Norfolk Southern servicing the region. Amtrak routes originate from Union Station, while the Metra commuter rail and the Chicago L provide passenger service throughout the metro area and beyond. International airports include O'Hare, Midway and Gary/Chicago. Sixteen smaller airports also provide air service for the region.

QUALITY OF LIFE

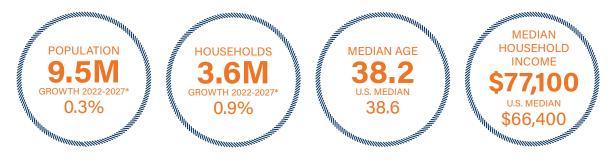

The Chicago metro has something to offer to each of its residents and visitors, whether it is legendary blues and jazz music, cultural and educational venues, professional sports, dining, entertainment, shopping or recreational amenities. The Chicago area's relative affordability is largely due to its lower housing costs. The median home price is significantly less than in other cities of its size and is below that of many smaller cities, including Seattle and Denver. Cultural activities and artistic venues underpin the metro's cosmopolitan lifestyle. The region is home to various well-known museums, including the world-class Field Museum, Shedd Aquarium, the Museum of Science and Industry, the Art Institute of Chicago and Adler Planetarium. The theater scene rivals the world's best, and troupes, dance companies, symphony orchestras and music venues abound. Chicago is also home to the upcoming Obama Presidential Center, which broke ground in September 2021.

METROPLEX GROWTH

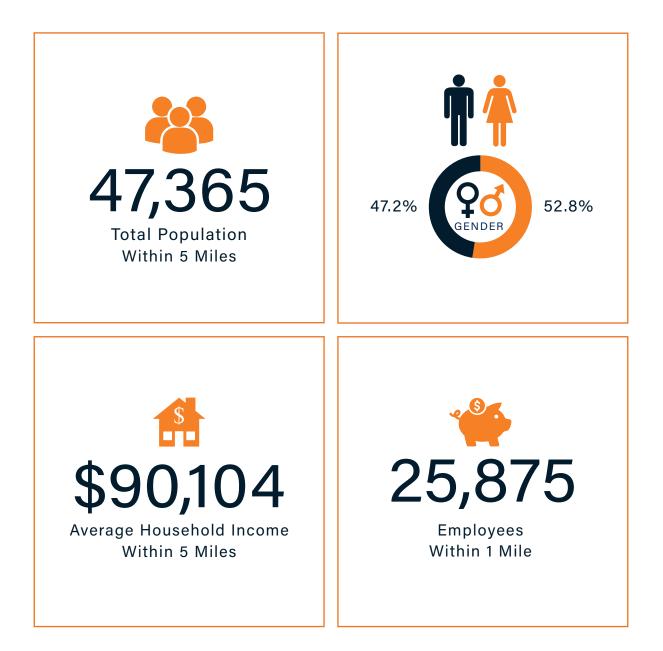

DEMOGRAPHICS

Chicago is the second-most populous metro in the U.S., with 9.5 million residents. During the next five years, the population is expected to remain steady. World-class education institutions, including Northwestern University and the University of Chicago, help provide a skilled labor pool. More than 40 percent of residents ages 25 and older hold a bachelor's degree, and of these, roughly 15 percent have also earned a graduate or professional degree, which is well above the national level. Younger professionals moving to the market for employment provide a skilled workforce and contribute to a median age that is slightly below that of the U.S. median, as well as a household income above the national level. More people are renting as thousands of new apartments are completed. The local home-ownership at 61 percent is slightly below the national rate.
